

Diverter
6790-TC-80CR

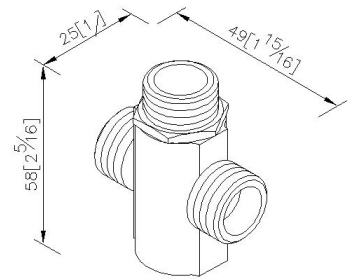

INTRODUCTION:

JUSTIME's sprayer are widely loved by the public. Many consumers also respond that although they are not currently using JUSTIME mixers, they want to install JUSTIME sprayer. Therefore, our team has developed a variety of three-way and four-way diverter, which provide single-handle and two-handle faucet are used with the sprayer, and can also be freely matched and installed on other different products according to user needs.

DESCRIPTION:

- 1.6790-TC for two-handle basin/kitchen faucet.
- 2.The faucet body needs to be connected to the diverter with a braided hose.
3. The other water inlet hole not used by the faucet body needs to be sealed with a water stop nut.
