Bath/Shower Faucet 6875-94-81CP

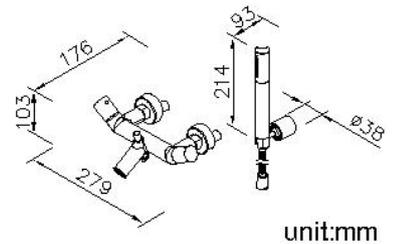

INTRODUCTION:

YES Series Mixers have been designed with the brief lines and geometric cylinder to simplify the outer shape and present the absolute image for Bath Mixers. It has been integrated the concept of ergonomics with 120 degrees design for the Handle, Body, and Spout to achieve simplest design with least material. Raising Handles provide convenient operation for users. YES Mixers have broken the heavy image of bath mixer, and designed with less material to create slim shape to increase the fitness in the bathroom interior arrangements.
